Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 4, 8, 9, 11-12, 14-18, 20-21, and 23-26 are rejected under 35

U.S.C. 102(e) as being clearly anticipated by Corder et al. (6,305,737).

Corder et al. has first and second door connectors (40), first and second pillar connectors (32), a connecting member (52), a first link (48) and a second link (46). For claims 9 and 18, see col. 7 lines 12-34. For claim 25, "hidden" is a relative term. Generally vehicle hinges are not visible in closed position.

3. Claims 1, 4, 8, 9, 11-13, 15-18, 20-22, 24 and 25 are rejected under 35

U.S.C. 102(b) as being anticipated by Kinaga et al. (4,713,862).

'862 shows first and second door connectors (17A, 17B), first and second pillar connectors (21A, 21B), a first link (38A) with two pivot ends (33A, 39A), a second link (38B) with two pivot ends (33B, 39B), a connecting member (harness protector-receiving mid-portion of element 33).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 5-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Corder et al. '737.

'737 discloses the invention as claimed but for the links and the connecting member being separate parts rigidly connected to each other. It would have been obvious to one having ordinary skill in the art at the time the invention was made to form the links and the connecting member of separate elements, since it has been held that constructing a formerly integral structure in various elements involves only routine skill in the art. *Nerwin v. Erlichman*, 168 USPQ 177, 179.

Allowable Subject Matter

6. Claims 2, 3, 10 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claim 27 are allowed.

Conclusion

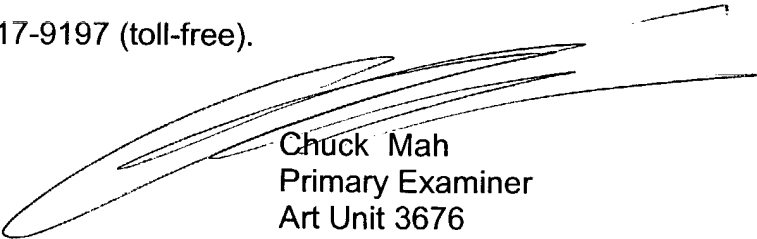

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
